Re: Water Dripping from Air-Conditioner

As summer is approaching, the Customer Service Centre would like to take this opportunity to remind all our owners/tenants to carry out pro-active maintenance to their air-conditioner(s), so as to avoid water dripping from their air-conditioner(s), thus causing nuisance to their neighbour downstairs.

Please be advised that water dripping from the air-conditioner(s) is not only in violation of the Deed of Mutual Covenant but is also against the laws of Hong Kong which is subject to a maximum fine of HK\$10,000. All residents are kindly requested to be considerate to their neighbours and take necessary action accordingly.

Your kind attention and co-operation are highly appreciated.
